# BIG CONVENTION IN ANCASTER

For Temperance and Moral Reform.

## NO BOOZE LEAGUE Gets a Boost That Will Help the Cause

The Temperance and Moral Reform Convention, which was held yesterday at White Birch Church, Ancaster, was a decided success.

It was arranged under the auspices of the Sunday schools of Westworth county for the purpose of organizing the young men of the township and community into a branch of the "No Boze League," recently inaugurated in Toronto.

There was a very large company present, and T. H. Laidman, superintendent of Ancaster township, acted as chairman, and after prayer by Rev. W. D. Marson, a Bible reading, a hymn and prayer by Rev. D. H. Taylor, he gave the following address:

"The Christian religion is moved with the pain of love for those for whom Christ's compassion was and is poured out."

"Christian friends, just stop a moment and think of the broken hearts of wives wronged by bad traffic in our community, in our county and in the Province of Ontario. If the people of the province could see the enormous record of guilt the country is rolling up in the hundreds of thousands of licensed drink traffic is making every year. Many of them are young men from good homes, who are drawn down to ruin. Purity and blessedness of home are more precious than revenue."

"The forces of evil in the shape of the social game, the club and the saloon are continually drawing the young people downward. The drunkards of the future will be recruited from the young men and women of today. How much better to make an earnest effort to establish laws in temperance principles, to endeavor to reform them after they have formed the habit. A great battle is on let us come to the help of the Lord against the mighty."

An address on prohibition was then given by Rev. J. W. Cameron of Callan, in the course of which he said that he had been working in the cause of temperance for thirty years, and he believed the outlook for temperance today was distinctly hopeful and very encouraging. He gave as his reasons that the various temperance organizations had joined together in the cause of prohibition, and to this end the young men of the Dominion were banding together. The churches also were more determined to support the liquor traffic, and others were working along similar lines. This movement, moreover, was being extended to the conference in California it had been agreed upon by those present that they were determined to see that the liquor traffic in the United States by the year 1920.

In the United States, 600,000 graduate annually as drunkards, one-sixth of whom range between the ages of 16 and 25, and one half annually of those who go down to drunkards' graves."

Rev. W. G. Bristol, Burlington, then spoke on "Young Men." He said that the young men should not waver in their fight, but say: "We are determined to wipe out the accursed traffic from our white Dominion." The young men were at the most important stage of their life, and nothing less than the very best should wait for them. They had to decide whether they would be abstainers or "just take one glass and then leave it." He said that there was a most difficult thing to do, and his advice was to cut it out completely. A splendid watchword for young men was "Abhor that which is evil and leave to that which is good."

From the mistakes of the year 1913 lessons should be learned as to how to act in 1914. Intemperance, he said, was the greatest evil in the land. If liquor was brought into local opinion districts then it was up to the temperance people to prevent it. He told of two young men whom he knew in Burlington, who had been last going to drunkards' graves, but who today were as fine and upright men as ever could be met. The change commencing in their lives when local opinion was introduced.

The speaker then touched on moral life, and said in closing that he considered that the Sunday schools had been doing a greater work than ever they had yet been called upon to do.

Rev. P. W. Philpott was the next speaker. He commenced his address by saying that he did not wish, nor did he like to hear anyone else run down the hotel keepers, generally speaking, they were as high as a lot of men, and could be met, but he did not desire to see any one worse than he was. He said that the word of money was at the bottom of the drunk evil. No more could be said many protesting Christians doing

other than fight against the drink traffic. The innate selfishness of those in the hotels prepared them to make money at any cost. Referring to the miracle of Christ when he cast out the devils from a man and the demons entered into a herd of swine, and the swine ran into the sea, he said that, like the Jews of old, many people today would sacrifice Christ for a few pence. Mr. Philpott then said that he was not like the brother ministers who had quarreled with the press. He considered the press an able agent in the suppression of gambling, the white slave traffic and other immoralities. Many said that the drink traffic could not be dispensed with because of the revenue it brought to the country, but Mr. Philpott said much more than the revenue derived from liquor is turned over again in jails, asylums and the insane hospital. The argument reminded him of the tale told by Mark Twain, who had a friend who bought a pig for \$100, and it ate 840 worth of corn, and sold the pig for 80 cents. A friend of this man remarked that he had made \$75, on the pig, but lost very heavily on the corn.

It was estimated that \$3000 was spent daily in Hamilton in saloons, this not including the liquor stores. Personally he was more ideal about the liquor stores than the saloons, though these had considerably improved since they were separated from the grocery stores. The foreign element of the cities bought very largely at these stores, and the result was liquor, stabbings, etc., by men in a drink-soaked condition.

Missionaries are sent to these foreign countries to proclaim the gospel, the natives of those countries are made slaves and were filled with this madness. Three millions a year was spent in Hamilton on drink traffic. The amount were turned into legitimate channels, there would be no outcry about poverty, and the schools would be better children. If this traffic is kept out for the revenue, why not derive a similar revenue from opium and the white slave traffic?

A vote of thanks was proposed by Rev. Dr. H. Taylor to those who had so ably addressed the meeting, and this was carried. A vote of thanks was also proposed by Rev. W. S. Daniels, Stoney Creek, to the speakers and the committee. Several resolutions during the afternoon session.

**EVENING SESSION.**  
The evening meeting was even better attended than that of the afternoon. After prayer by Rev. C. M. Taylor, the chairman, T. H. Laidman, made a few remarks on the advantages of such organizations as that for the stocking of the young men of the township. The speaker said that the young men of the township were a great help to the prohibition movement. It was the young men of the Dominion who were the backbone of the movement in this country.

Rev. J. W. Cameron, chairman of the meeting of the temperance societies of the Sunday schools, gave a short synopsis of the work done in this line during the past year.

After a selection had been sung by the choir, Rev. C. M. Taylor, of Callan, presided at the meeting on "Moralities." He said that his address would be on "Moralities." He said that the work of the church was as largely dependent upon the moral character of the people as it was upon the financial resources. He said that the church was a moral institution, and that it was the duty of the church to be a moral institution. He said that the church was a moral institution, and that it was the duty of the church to be a moral institution.

He said that the church was a moral institution, and that it was the duty of the church to be a moral institution. He said that the church was a moral institution, and that it was the duty of the church to be a moral institution. He said that the church was a moral institution, and that it was the duty of the church to be a moral institution.

He said that the church was a moral institution, and that it was the duty of the church to be a moral institution. He said that the church was a moral institution, and that it was the duty of the church to be a moral institution. He said that the church was a moral institution, and that it was the duty of the church to be a moral institution.

He said that the church was a moral institution, and that it was the duty of the church to be a moral institution. He said that the church was a moral institution, and that it was the duty of the church to be a moral institution. He said that the church was a moral institution, and that it was the duty of the church to be a moral institution.

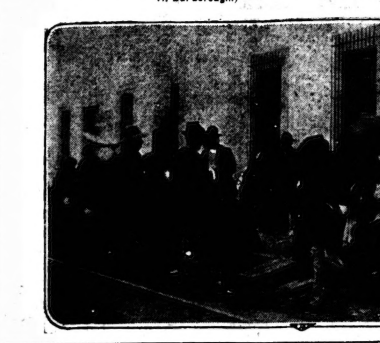

He said that the church was a moral institution, and that it was the duty of the church to be a moral institution. He said that the church was a moral institution, and that it was the duty of the church to be a moral institution. He said that the church was a moral institution, and that it was the duty of the church to be a moral institution.

He said that the church was a moral institution, and that it was the duty of the church to be a moral institution. He said that the church was a moral institution, and that it was the duty of the church to be a moral institution. He said that the church was a moral institution, and that it was the duty of the church to be a moral institution.

# THE BREAD LINE IN MEXICO'S "SADDEST CITY"

Chihuahua's destitute waiting for food at the rebel army's headquarters. That place, once the Mexican "City of Plenty," is now its "Saddest City," and its residents are on the verge of starvation.

(Photographed Especially for the Daily Times by Staff Photographer W. H. Durborough.)

until he does get it. When farmers have more money as a result of their labor they will spend more, which will result in a more forward state in the welfare of Canada as has never been known. To keep farmers in the position of non-alien is a suicidal policy for any country. Let us change it.

The convention was opened this morning by Mr. G. A. Gillespie, of Peterborough, the President of the Dominion Dairy Farmers' Association. The speaker said that the dairy industry in this country was in a very bad way. The price of milk was falling, and the farmers were suffering. He said that the dairy industry was a very important one in this country, and that it was the duty of the government to protect it.

**FARMERS NEED GREAT LEADER**  
Ontario Requires an Agricultural Moses.

**SELLING THE CATTLE**  
The Dairyman's Convention Told of Its Dangers.

Conwell, Jan. 7.—Relief from burdensome interest charges, improved methods of cooperative marketing, and finally a great agricultural leader, were some of the vital needs of the dairy farmers of Canada, enumerated by Prof. H. H. Dean, of the Ontario Agricultural College, Guelph, in addressing the members of the Dairyman's Association of Eastern Ontario, which opened here today.

Prof. Dean urged the need of a man of vision and courage, an agricultural Moses, to lead the people out of Egyptian bondage through the wilderness of debt and down into the promised land.

"Without asking any question on our present leaders," said he, "it looks as if the farmers' Moses had not been born, or if he had, he is not doing his duty. He is not leading the people out of Egyptian bondage through the wilderness of debt and down into the promised land."

**HAYTIAN REVOLT**  
Little Rebellion is Progressing Rapidly.

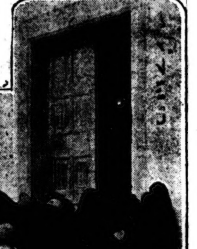

Cape Haytien, Jan. 7.—The revolution is progressing rapidly, and the movement is gaining momentum. The rebels are making rapid progress, and the government forces are being defeated. The rebels are making rapid progress, and the government forces are being defeated.

## BLIND PIG ON THE MOUNTAIN

East End Residents Have Their Suspicion.

### CHASED A THIEF

A Large Crowd Saw the Trial of Extinguisher.

The mountaineers are feeling pretty pessimistic about the advantages of living on the mountain, now that the winter has set in. The residents are of the opinion that the city should furnish some plan by which they can get transportation up and down. Several prominent members of the Improvement Society stated that the society would take the matter up at their next meeting, and the city would be asked to take some action.

The choir of St. Stephen's Church were entertained last night at the home of one of the members, Mr. F. James, the well-known mountain barker. A very enjoyable evening was spent by all.

A large crowd gathered last night at the corner of Alexander and Concession streets to witness the buffalo to test the extinguisher of the Chief Extinguisher Co. This appliance worked to the satisfaction of all the onlookers, the large blaze being put out in a few seconds. Chief Tom Eyles, of the fire department, was on hand to see the appliance work. The Improvement Society is contemplating buying an extinguisher that can be wheeled around.

A rumor is going around the mountain to the effect that there is a "blind pig" up there on Concession street. Many people have their suspicions. Mr. Charles Jamieson, manager of the Foresters' Club, wishes to call a meeting of the team next Friday night to see the players about going down to St. Lawrence's Church to play the team there. The game has been arranged, and all of last year's players are expected to be on hand on Friday night.

The Mohawk Club are contemplating the possibility of getting a hockey team together. There is some very good material in the club, and as soon as the winter becomes cold enough they will be given a tryout.

## WILLIAM'S DEATH

Coroner's Jury Desires Some More Information.

After the evidence of two witnesses had been heard at the inquest held at the police station last night into the death of Llewellyn Williams, at the Broad Trunk station last Friday night, the jury decided that it should be postponed until witnesses, who were not present, could be called. There was some doubt as to whether or not Williams had any business at the spot where he was killed.

Peter McMillan, transfer agent of the company, stated that he was present when Williams was picked up. He was questioned and asked that his wife and brother be notified. McMillan thought that Williams' business, which was train transfer, called him to the spot where he was struck down. He was supposed to couple him on cars and tap wheels.

After the evidence of two witnesses had been heard at the inquest held at the police station last night into the death of Llewellyn Williams, at the Broad Trunk station last Friday night, the jury decided that it should be postponed until witnesses, who were not present, could be called.

The evidence of W. Hall, trainmaster, conflicted with that of Hall, who was called, as his work did not take him there.

Coroner Baile was in charge, and decided that a postponement was necessary, which the members of the jury agreed to.

## The Confessions of a Wife

Kitty Malram's Story.

CHAPTER XLVII.

"I shall begin at the beginning," said Kitty. "You know, Madge, I have always wanted to marry a man who had money. I was always tired of seeing my mother worry and work to get things for me that I might have the pleasure of other girls."

"You used to say, Kitty, when we were in school together, that it was as easy to fall in love with a rich man as a poor one."

"Yes, I know," continued Kitty, "without a smile, I thought I was in love with a good man of the boys and so he was with me. No one told me he was married—indeed, I did not know he was married until one day I met Mr. Tennant. I was invited to a motor party and was given a seat beside him in his wonderful seven-passenger car. Immediately I knew he was the man."

"Are you sure, Kitty, dear, the wonderful motor did not have something to do with that knowledge?" asked Madge.

"It might," she answered honestly, "but I was greatly interested in him and so he was with me. No one told me he was married—indeed, I did not know he was married until one day I met Mr. Tennant. I was invited to a motor party and was given a seat beside him in his wonderful seven-passenger car. Immediately I knew he was the man."

"Are you sure, Kitty, dear, the wonderful motor did not have something to do with that knowledge?" asked Madge.

"It might," she answered honestly, "but I was greatly interested in him and so he was with me. No one told me he was married—indeed, I did not know he was married until one day I met Mr. Tennant. I was invited to a motor party and was given a seat beside him in his wonderful seven-passenger car. Immediately I knew he was the man."

I was invited to a motor party and was given a seat beside him in his wonderful seven-passenger car. Immediately I knew he was the man."

"Are you sure, Kitty, dear, the wonderful motor did not have something to do with that knowledge?" asked Madge.

"It might," she answered honestly, "but I was greatly interested in him and so he was with me. No one told me he was married—indeed, I did not know he was married until one day I met Mr. Tennant. I was invited to a motor party and was given a seat beside him in his wonderful seven-passenger car. Immediately I knew he was the man."

## Commencing Tomorrow and Lasting Through Saturday Second Annual Dress Sale

"BEST"

The Greatest Money-Saving Event of the Entire Year

Prices Severely Reduced

ONE A year do we hold this sale—once a year do we excel in value-giving.

Last year this great event was held three weeks later. This year you have the opportunity of purchasing one of the season's latest Dresses at close to the import price.

Only the far-famed designing celebrities of Paris, London, Berlin and New York are represented. There are many beautiful models, reproductions by Redfern, Zimmermann, Marjorie, Lacroix, Worth, Rivieret, Paquin and others in the collection.

A dress for every occasion:

Evening Dresses Morning Dresses

Street Dresses Afternoon Dresses

Carriage Dresses Theatre Dresses

Reception Dresses Dinner Dresses

And smart little Dancing Frocks

# MONEY

In Your Pocket

Owing to the very mild season we have not sold so many warm cosy house slippers as we expected. The chances are that we will yet have a lot of cold weather—but this reliable shoe store is not "run on chances."

**PRICES CUT.** We have decided to sell all felt slippers and warm house shoes at reduced prices. We expect to lose a little money during this sale, but consider it better business to do so rather than carry the goods over.

**MEN'S WATERPROOF TANS.** The balance of men's \$5.50 tan storm Blucher laced boots, leather lined, heavy double sole and shanks, to be cleared at \$4.45. We have but a few pairs of this line.

**CRESO CALFSKIN**—These are the celebrated "Hagar Shoes," made of dark brown waterproof tan, heavy double waterproof soles. We have never sold a pair for less than \$6.50, but the few pairs left will be run out at \$5.45, and they are

**WOMEN'S OF SAME.** We have a few pairs of Women's Cresco to match the men's, price \$5.50. We will clear these few pairs out at \$4.45.

**BROKEN LOTS.** We have many other lines, a few pairs of a kind, for both women and men, to be **CLEARED OUT AT COST.** They are all reliable and up-to-date stock.

Our usual guarantee goes with all of above goods. They

are genuine bargains.

A writer in *The Chemical World* predicts that gasoline will be supplanted by the use of alcohol denatured with 10 per cent. of benzol. This will be

safer, more pleasant to use and sweeter in exhaust than the gasoline of today. Though the calorific value of this mixture is only six-tenths that of "petrol" or gasoline, the higher com-

pression possible and increased explosive range will make it the ideal motor spirit. Benzol itself is being seriously considered as a substitute.

It is 12 per cent. more powerful in running than gasoline, and English coke oven plants yield 8,000,000 gallons as a by-product. The commercial product containing, as it does, 150 grains

of sulphur per gallon needs careful manage to have a heated argument  
purification for motor use Judge

NOTICES of Births, Marriages and Deaths which are inserted in the DAILY TIMES also appear in the SUNDAY TIMES.
